#### **About VIZIO**

Founded and headquartered in Orange County, California, our mission at VIZIO Holding Corp. (NYSE: VZIO) is to deliver immersive entertainment and compelling lifestyle enhancements that make our products the center of the connected home. We are driving the future of televisions through our integrated platform of cutting-edge Smart TVs and powerful operating system. We also offer a portfolio of innovative sound bars that deliver consumers an elevated audio experience. Our platform gives content providers more ways to distribute their content and advertisers more tools to connect with the right audience.

#### **Supplemental Financial and Other Information**

Supplemental financial and other information can be accessed through our Investor Relations website at investors.vizio.com. We announce material information to the public about our company, products and services, and other matters through a variety of means, including filings with the Securities and Exchange Commission, press releases, public conference calls, webcasts, our Investor Relations website (investors.vizio.com), our blog (accessible via vizio.com/en/newsroom) and our Twitter account (@VIZIO) in order to achieve broad, non-exclusionary distribution of information to the public and for complying with our disclosure obligations under Regulation FD.

#### **Key Operational and Financial Metrics**

We review certain key operational and financial metrics to evaluate our business, measure our performance, identify trends affecting our business, formulate business plans and make strategic decisions. We regularly review and may adjust our processes for calculating our internal metrics to improve their accuracy.

The metrics included in this press release and the accompanying call, including the key operational and financial metrics defined below, as well as SmartCast Hours per SmartCast Active Account, direct advertising client relationships and net new advertisers, are not based on any standardized industry methodology and are not necessarily calculated in the same manner or comparable to similarly titled measures presented by other companies. Similarly, these metrics may differ from estimates published by third parties or from similarly titled metrics of our competitors due to differences in methodology. The numbers that we use to calculate these metrics are based on internal data. While these numbers are based on what we believe to be reasonable judgments and estimates for the applicable period of measurement, there are inherent challenges in measuring usage and engagement. We regularly review and may adjust our processes for calculating our internal metrics to improve their accuracy.

**Smart TV Shipments.** We define Smart TV Shipments as the number of Smart TV units shipped to retailers or direct to consumers in a given period. Smart TV Shipments currently drive the majority of our revenue and provide the foundation for increased adoption of our SmartCast operating system and the growth of our Platform+ revenue. The growth rate between Smart TV shipments and Device net revenue is not directly correlated because VIZIO's Device net revenue can be impacted by other variables, such as the series and sizes of Smart TVs sold during the period, the introduction of new products as well as the number of sound bars shipped.

**SmartCast Active Accounts.** We define SmartCast Active Accounts as the number of VIZIO Smart TVs where a user has activated the SmartCast operating system through an internet connection at least once in the past 30 days. We believe that the number of SmartCast Active Accounts is an important metric to measure the size of our engaged user base, the attractiveness and usability of our operating system, and subsequent monetization opportunities to increase our Platform+ net revenue.

**Total VIZIO Hours.** We define Total VIZIO Hours as the aggregate amount of time users spend utilizing our Smart TVs in any capacity. We believe this usage metric is critical to understanding our total potential monetization opportunities.

**SmartCast Hours.** We define SmartCast Hours as the aggregate amount of time viewers engage with our SmartCast platform to stream content or access other applications. This metric reflects the size of the audience engaged with our operating system as well as indicates the growth and awareness of our platform. It is also a measure of the success of our offerings in addressing increased user demand for OTT streaming. Greater user engagement translates into increased revenue opportunities as we earn a significant portion of our Platform+ net revenue through advertising, which is influenced by the amount of time users spend on our platform.

**SmartCast ARPU.** We define SmartCast ARPU as total Platform+ net revenue, less revenue attributable to legacy VIZIO V.I.A. Plus units, during the preceding four quarters divided by the average of (i) the number of SmartCast Active Accounts at the end of the current period; and (ii) the number of SmartCast Active Accounts at the end of the corresponding prior year period. SmartCast ARPU indicates the level at which we are monetizing our SmartCast Active Account user base. Growth in SmartCast ARPU is driven significantly by our ability to add users to our platform and our ability to monetize those users.

**Device gross profit.** We define Device gross profit as Device net revenue less Device cost of goods sold in a given period. Device gross profit is directly influenced by consumer demand, device offerings, and our ability to maintain a cost-efficient supply chain.

**Platform+ gross profit.** We define Platform+ gross profit as Platform+ net revenue less Platform+ cost of goods sold in a given period. As we continue to grow and scale our business, we expect Platform+ gross profit to increase over the long term.

#### **Non-GAAP Financial Measures**

To supplement our financial information presented in accordance with generally accepted accounting principles in the United States of America, or GAAP, VIZIO considers certain financial measures that are not prepared in accordance with GAAP, including Adjusted EBITDA. We define Adjusted EBITDA as total net income (loss) before interest income, net, other income (expense), net, provision for (benefit from) income taxes, depreciation and amortization and share-based compensation. We consider Adjusted EBITDA to be an important metric to assess our operating performance and help us to manage our working capital needs. Utilizing Adjusted EBITDA, we can identify and evaluate trends in our business as well as provide investors with consistency and comparability to facilitate period-to-period comparisons of our business. We believe that providing users with non-GAAP measures such as Adjusted EBITDA may assist investors in seeing VIZIO's operating results through the eyes of management and in comparing VIZIO's operating results over multiple periods with other companies in our industry.

We use Adjusted EBITDA in conjunction with net income (loss) as part of our overall assessment of our operating performance and the management of our working capital needs. Our definition of Adjusted EBITDA may differ from the definition used by other companies and therefore comparability may be limited. In addition, other companies may not publish Adjusted EBITDA or similar metrics. Furthermore, Adjusted EBITDA has certain limitations in that it does not include the impact of certain expenses that are reflected in our condensed consolidated statement of operations that are necessary to run our business. Thus, Adjusted EBITDA should be considered in addition to, not as a substitute for, or in isolation from, measures prepared in accordance with GAAP, including net income (loss).

We compensate for these limitations by providing a reconciliation of Adjusted EBITDA to net income (loss). We encourage investors and others not to rely on any single financial measure and to view Adjusted EBITDA in conjunction with net income (loss).
