#### WE STRIVE FOR EXCELLENCE IN EVERYTHING WE DO

Merchandising excellence - the goal of every retailer - may be a simple matter of having "the right merchandise at the right place at the right time and at the right price." In past years, we have shared with you our emphasis on customer convenience, clean and attractive stores, value and productivity, all of which are critical in our effort to become excellent merchants. This year, our Report focuses on our most important ingredient - the "right" people.

The people to whom you will be introduced in this Report are a small sampling of the many partner-associates who perform the most important role in Wal-Mart's pursuit of excellence.

Sam M. Walton Chairman of the Board and Chief Executive Officer

TO OUR SHAREHOLDERS...Our Company achieved dramatic growth and excellent operating results in a very challenging economic climate for the fiscal year ended January 31, 1986. Sales and earnings reached record levels for the 16th consecutive year since the initial public offering of Wal-Mart stock in 1970.

Sales rose 32% to a record \$8.451 billion from \$6.401 billion a year earlier and net income improved 21% to a record level of \$327.5 million, compared with \$270.8 million in the preceding year. Net income per share was \$1.16, up

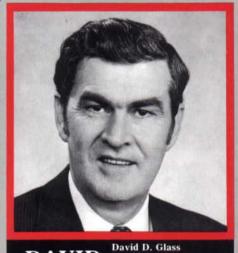

from \$.96 in the prior year.

Changing economic conditions produced unique challenges during the year. Interest rates and unemploy-

ment trended down; and we experienced a moderating rate of inflation and even substantial deflation in some product lines. Our response to these conditions has been

to reinforce our commitment to "Everyday Low Prices" by aggressively seeking cost reductions from our suppliers and passing the savings to our customers. These "Price Rollbacks" now include several thousand items. Our overall program, designed to increase sales and market share in a disinflationary environment, required improved inventory management to support greater unit volume. As a result of these and other programs, Wal-Mart attained a nine percent sales increase in comparable stores during the year. And, the added emphasis on inventory management improved turnover rate in all divisions and distribution centers.

The year was highlighted by exciting new store growth. Our Company opened 115 new Wal-Mart stores (one in a multi-unit market was closed),12 new Sam's Wholesale Club units, one new dot Dis-

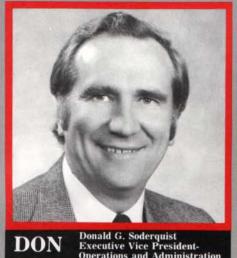

DAVID David D. Glass
President and
Chief Operating Officer

Jack Shewmaker Vice Chairman and Chief Financial Officer **JACK** 

count Drug Store and two Helen's Arts and Crafts stores. In addition, 36 of our older, more productive stores were expanded or relocated and 34 stores were remodeled. The total addition of 9,354,000 square feet of store space represents a 22% increase during the year. We continue to place emphasis on updating and modernizing our older stores.

Sam's Wholesale Club, our wholesale-membership division, continued its rapid growth in sales and further improved its profitability. Sales reached \$776 million, an increase of 250% over sales of \$222 million in the preceding year. In just two and one-half years, this division has far exceeded our ambitious goals, becoming the second largest participant in this quickly expanding marketing concept. Sam's profitability, although significantly lower

as a percentage of sales than that realized by Wal-Mart stores, offers an attractive return on investment. This profitability and the strong complement Sam's provides to the marketing strategies of Wal-Mart stores provide the Company an added

dynamic vehicle for continued growth.

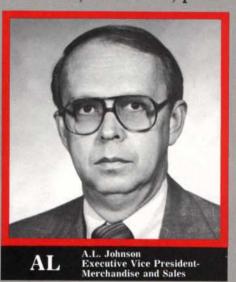

Common shareholders' equity grew to \$1.278 billion, up 30% from \$985 million a year earlier, further strengthening the Company's financial position. To enhance liquidity, a \$100 million bond issue and two participating mortgage issues aggregating \$40.5 million were sold, the proceeds of which were used primarily in supplementing our traditional method (sale/leaseback) of financing real estate. The improvement in our inventory management also aided Wal-Mart's liquidity. Although short-term borrowing will be required to support seasonal inventory buildups, the internal funding of our presently planned Donald G. Soderquist
Executive Vice PresidentOperations and Administration

buildups, the internal funding of our presently plant
growth, excluding most real estate, should continue.

We successfully tested a new small store prototype of 29,000 square feet. This prototype is targeted at markets previously considered too small and, therefore, pass-

ed over by mass merchants. The concept requires strict merchandise discipline and operating controls. We are pleased with the results to date and believe there are opportunities for numerous locations of this prototype in our existing trade territory.

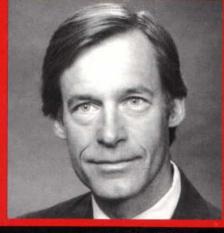

"Buy American" is a success! Against strong economic trends, we embarked on this important new direction for our Company in March 1985. "Buy American" has become a commitment by all Wal-Mart associates to address some of the serious economic problems facing our country. Our merchandising division has worked hard with suppliers and manufacturers to return production to this country. As of January 31, 1986, about \$200 million in merchandise purchases has been brought home to American manufac-

turing, creating or retaining 4,500 jobs for Americans, many of whom are Wal-Mart

S. Robson Walton Vice Chairman ROB

customers and shareholders. The most rewarding result. however, comes from the strong support our customers have exhibited. We believe, more than ever, that "American goods are good for America" and we pledge to extend this new spirit of cooperation throughout 1986 and beyond.

Since 1980, the Company's ratio of operating expenses to sales has declined each year.

This accomplishment is particularly difficult in a disinflationary environment and reflects the concerted expense control efforts practiced throughout the Company. An excellent example of this expense consciousness is the current conversion of old

warehouse space in Bentonville into office space to accommodate the expanding requirement of the general office support departments. This utilization of vacated warehouse space displaces a long-delayed plan to build an enlarged office complex.

Progress was made on several other fronts: scanning of Uniform Product Code (UPC) at point-of-sale has been expanded; the satellite communications system is being installed and is functioning in some locations; new distribution facility space has been placed in service and additional space is under construction; and the Walton Institute of Retailing was established to spearhead our training requirements.

These activities are discussed in greater detail on the following pages.

The new year holds great opportunity for those willing to accept its challenges. We have developed aggressive plans which, if realized, will increase our sales volume by more than \$2.5 billion. The centerpiece of this plan is continuing the productivity improvements in our existing stores through such programs as "Price Rollback" and training our associates to offer better and friendlier customer service. In addition, our new store program projects 115 new Wal-Mart's and 18 new Sam's, plus the expansion or relocation of 45 older Wal-Mart stores which will add more than 11 million square feet of store space or 22% to the square footage at the beginning of the year.

We have the opportunity of becoming the fourth largest general merchandise retailer in sales volume in the United States during 1986. We continue our ambitious growth plans not to become bigger for the sake of bigness and not for short-term profits or benefits, but to insure our shareholder partners a generous return on their invest-

ment on a long-term basis.

Our accomplishments as a company are directly attributable to the commitment, skills and hard work of our 104,000 dedicated associates. We appreciate the partnership we have developed with our associates, suppliers and shareholders. Not only do we share a great pride in our joint accomplishments, we also look forward to our future growth together.

Respectfully,

Sam M. Walton

Chairman of the Board and

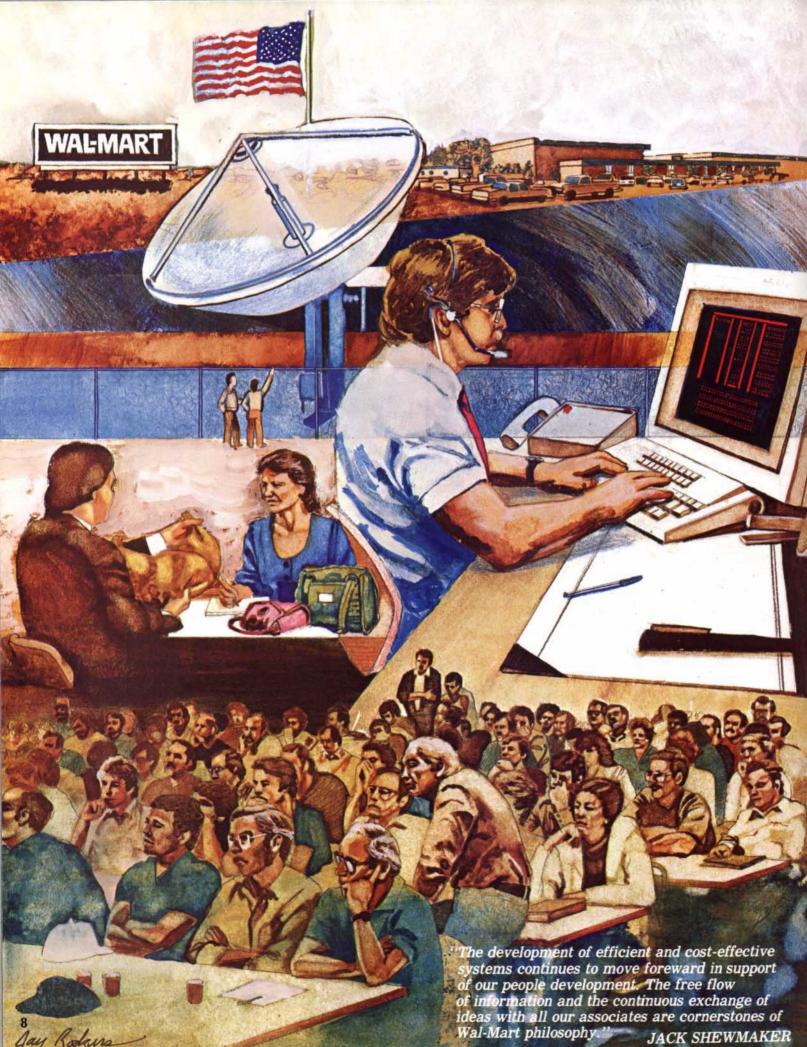

Chief Executive Officer

David D. Glass President and

Chief Operating Officer

Jack Shewmaker Vice Chairman and Chief Financial Officer

# "OUR PEOPLE REFLECT WAL-MARTS PHILOSOPHY."

PREPARING FOR THE FUTURE... Wal-Mart's trade territory was expanded last year to Wisconsin and as far west as Colorado as a result of our dedication to continuing profitable growth. As of January 31, 1986, the Company operated 859 Wal-Mart stores, 23 Sam's Wholesale Clubs, two dot's and three Helen's (see map on Pages 14 and 15 for locations by state).

The expansion of our store-support facilities also progressed with the construction of distribution centers in Douglas, Georgia (opening January 1986), Brookhaven, Mississippi (opening August 1986), Plainview, Texas (opening September 1986) and an additional center in Bentonville, Arkansas (opening December 1985). This aggressive expansion will add

MARY Mary Musholt
Five Year Wal-Mart Associate

2,598,000 square feet of distribution center space to our system in 1986, an increase of 66%. Our second film processing plant began operation in Bentonville, Arkansas in September 1985.

Our continuing dramatic growth, though exciting, is a challenge to our basic strength—our people. We ended last year with 104,000 associates, an increase from 81,000 a year earlier. It is evident that our business has been and will continue to be a people business. Wal-Mart's "Our People Make the Difference" explanation for past success is more than a slogan or philosophy — it's the very heart of Wal-Mart. Together we are strong, but our need to grow

RICK Rick Wilson Four Year Wal-Mart Associate and work together has never been more of a necessity. Our Company is committed to people development; our future depends on it. We must have trained, motivated and entrepreneurial people prepared for the opportunities and challenges that tomorrow will surely bring. In November 1985, the Walton Institute of Retailing, a coordinated effort of the University of Arkansas Continuing Education Center and Wal-Mart, was founded. The institute combines the collective talents

of the Wal-Mart management group, the University of Arkansas College of Business Administration and recognized national lecturers. Several courses were con-

ducted last year for select groups of store managers, regional and district managers combined with representatives from general office management. During the new year, this management development program will be offered to every member of our management team through-

out all stores, distribution facilities and the general office. The Walton Institute strengthens our ongoing Retail

PARKER Parker Hunt-4 Years & TERRY Terry Bland-6 Months

Management Training Seminar (RMTS) which is designed to acquaint Assistant Managers who have completed their in-store training segment with a wide spectrum of management fundamentals. RMTS graduated more than 300 store manager candidates last year and the program is being geared to offer similar instruction to approximately 1,000 associates this year at an earlier period in their training cycle.

This training and development of management is reinforced by our in-store training of Department Managers and Customer Service Managers through regional product-knowledge seminars, the Department Manager's Development Guide and other

special training activities.

Janelle Cope Two Year Wal-Mart Associate

Our people are encouraged to become involved in their local communities. We support this involvement through such programs as United Way and Special Olympics and many special local community projects for which the Company sponsors a

matching fund. Through our scholarship program, a \$1,000 scholarship was awarded to a high school graduate

in each community having a Wal-Mart store.

PEGGY Peggy Griffith Thirteen Year Associate

The development of efficient and cost-effective systems continues to move forward in support of our people development. The free flow of information and the continuous exchange of ideas with all our associates are cornerstones of Wal-Mart philosophy. We are determined that these will not be compromised as a "cost" of growth. The Wal-Mart Satellite Network (WSN) has been successfully tested and the deployment of the system in over 600 stores and seven distribution centers is planned for 1986. with complete deployment by mid-1987. WSN will make

new applications of current systems a reality for all stores, as well as providing "on line" access to information presently available in other forms. The network will assure

direct store-to-store and store-to-general office voice and data communication at a fixed future cost in a general environment of escalating cost. Communications will be enhanced further by WSN's capacity to beam live

video presentations from the general office to the balance of the system. One example of the many applications this system will provide is the reduction of credit card authorization response time to only four or five seconds and at a significantly reduced

expense.

Our Douglas, Georgia, Distribution Center began operations in January 1986 utilizing a bar code scanning system similar to the Uniform Products Code

VI & GLEN Vi Reiling-61/2 Years Glen Mai-3 Years

in freight sorting, shipping and billing, which will provide faster and more accurate merchandise flow to the stores serviced by this facility. Our plans are for complete conversion to this program in all stores and distribution facilities by mid-1987. Store associates utilizing hand-held bar code scanning units can receive and price-mark merchandise, bypassing all paperwork associated with the present system of checking and matching merchandise billed against that received. In addition to these improvements in merchandise handling efficiencies and the resulting expense savings, this replenishment system supports our continuing commitment to point - of - sale scanning, which utilizes the UPC bar code. At last year-end, UPC scanning at the checkouts was operational in 235 Wal-Mart stores.

the checkouts was operational in 235 Wal-Mart stores. During 1986, scanning will be implemented in every new store and approximately 200 existing stores will be con-

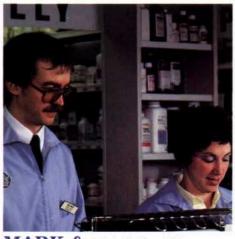

VON Von Johnston Ten Year Wal-Mart Associate

verted. We are committed to maximizing the multiple benefits this technology will provide our stores, in addition to the improved customer checkout service. "Data Collect", a new system recently introduced in all scanning stores, provides accurate tracking of merchandise sales by item for store management on a daily basis. This system creates exciting opportunities to maximize sales on "hot items" by maintaining proper in-stock position. Scanning also serves to reduce shrinkage by providing control over the capture and recording of markdowns.

These new systems are as exciting as they are essential in meeting our objective of supporting and training our people to address the challenges of the future.

"Our People Make the Difference," a special slogan—an oversimplification? Not really. Our dedication to a philosophy of continuing, controlled, profitable growth can be managed only by people, not programs, not systems, but the "right" people—

Wal-Mart people.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### RESULTS OF OPERATIONS

Sales for the three fiscal years ended January 31, 1986, and the respective total and comparable store percentage sales increases over the prior year were as follows:

Fiscal year ended January 31,	Sales	Total company percent increases	Comparable stores percent increases
1986	\$8,451,489,000	32%	9%
1985	6,400,861,000	37	15
1984	4,666,909,000	38	15

Sales increases were due to the improved productivity of comparable stores, and the contribution of new stores (115 Wal-Mart stores and 12 Sam's units in fiscal 1986, 106 Wal-Mart stores and 8 Sam's units in 1985 and 91 Wal-Mart stores and 3 Sam's units in 1984). The impact of inflation and changing prices on the results of operations is presented in Note 8 of Notes to Consolidated Financial Statements.

The Sam's units contributed the following sales for the periods indicated:

Fiscal year ended January 31,	Sales
1986	\$776,483,000
1985	221,586,000
1984	37,364,000

The following table sets forth, for the fiscal periods indicated, the percentage that certain items in the Company's Consolidated Statements of Income bear to net sales and the annual percentage change of such items for the period indicated.

	Percentage of sales year ended January 31,			Perce		
	1986	1985	1984	1986	1985	1984
Sales	100.0%	100.0%	100.0%	32.0%	37.2%	38.2%
Cost of salesOperating, selling and general	75.3	73.8	73.2	34.7	38.2	39.0
and administrative cost	17.6	18.5	19.1	25.7	32.3	31.9
Interest costs	.7	.7	.8	18.5	36.8	(10.3)
Provision for income taxes .	3.3	3.6	3.5	19.7	43.3	60.2
Net income	3.9	4.2	4.2	20.9	38.0	58.1

Cost of sales increased 1.5% in fiscal 1986 compared with 1985. The increases were due to the cost of sales in the Sam's units, which is significantly higher than in the balance of the Company, the continuation of reduced initial markons supporting emphasis in the Wal-Mart stores on everyday low prices and the Company's "Price Rollback" program, and higher LIFO costs in 1986 than 1985.

Cost of sales increased .6% in fiscal 1985 compared with 1984. The increases were due to the cost of sales in the Sam's units, which is significantly higher than in the balance of the Company, and reduced initial markons supporting the Wal-Mart stores everyday low price program partially offset by an improvement in shrinkage and lower LIFO costs.

Operating, selling and general and administrative expenses decreased .9% and .6% respectively in fiscal years 1986 and 1985 as compared with fiscal years 1985 and

1984 through continued cost control efforts, productivity improvements and the effects of Sam's units expense ratios to sales being significantly lower than in the balance of the Company.

Interest costs remained relatively constant for the three fiscal years ended 1986. See Note 3 of Notes to Consolidated Financial Statements for additional information on interest and debt.

The effective tax rate was 45.7% in fiscal 1986, 46% in 1985 and 45.1% in 1984. See Note 4 of Notes to Consolidated Financial Statements.

#### LIQUIDITY AND CAPITAL RESOURCES

#### Fiscal 1986

Funds provided from current operations were a record \$435,144,000 in fiscal 1986. These funds combined with the issuance of \$141,120,000 in long-term debt were used to finance capital expenditures for fixture additions, equipment, leasehold improvements, 18 Wal-Mart stores in the state of Florida, 12 Sam's Wholesale Club units, the construction of two distribution centers and the partial construction of a third, and to a lesser extent, to pay dividends and provide general working capital. In addition, the Company maintains \$425,000,000 in lines of credit to support short-term borrowing and commercial paper sufficient to finance the seasonal buildups in merchandise inventories and interim financing requirements for store properties developed under sale/leaseback arrangements, and at January 31, 1986, had \$165,168,000 in short-term money market investments.

The Company opened 115 Wal-Mart stores during fiscal 1986, and financed the real estate primarily through sale/leaseback arrangements or leases from real estate developers. Capital expenditures of \$350,667,000 excluding leased properties, were financed through internally generated funds and the issuance of long-term debt.

The Company's debt (including obligations under capital leases)-to-equity ratio increased to .61:1 at the end of fiscal 1986 as compared with .50:1 at the end of the preceding year due to the issuance of \$141,120,000 in debt.

Capital expenditures planned for fiscal 1987, including 18 Sam's units and excluding leased properties, are approximately \$375,000,000. These expenditures will be financed from internally generated funds. In addition, the Company plans to open approximately 115 Wal-Mart stores, most of which will be financed through sale/leaseback arrangements or real estate developers and will require approximately \$200,000,000 in lease financing.

Dividends for fiscal 1987 have been increased to 17.0 cents per share from 14.0 cents per share in fiscal 1986, payable quarterly at 4.25 cents per share.

#### Fiscal 1985

Funds generated from operations were \$347,094,000. The Company had access to \$477,000,000 in unused lines of credit for short-term borrowing and issuance of commercial paper.

Additions to property, plant and equipment totaled \$213,200,000, excluding leased store properties, and were financed with internally generated funds. The debt-to-equity ratio decreased to .50:1 from .52:1 in fiscal 1984.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Wal-Mart Stores, Inc. and Subsidiaries

#### Note 1 Accounting policies

Segment information—The Company and its subsidiaries are principally engaged in the operation of discount stores in a 22-state region. No single customer accounts for a significant portion of its consolidated sales.

Consolidation—The consolidated financial statements include the accounts of all subsidiaries.

Inventories—Inventories are stated principally at cost (last-in, first-out), which is not in excess of market, using the retail method for inventories in stores.

Pre-opening costs—Costs associated with the opening of new stores are expensed during the first full month of operations. The costs are carried as prepaid expenses prior to the store opening.

Interest during construction—In order that interest costs properly reflect only that relating to current operations, interest on borrowed funds during the construction of property, plant and equipment is capitalized. Interest costs capitalized (excluding amounts related to properties developed under sale/leaseback arrangements) are \$4,351,000, \$970,000 and \$535,000 in 1986, 1985 and 1984 respectively.

Depreciation—Depreciation for financial statement purposes is provided on the straight-line method over the estimated useful lives of the various assets. For income tax purposes, the accelerated cost recovery system is used for assets placed in service after 1980 and accelerated depreciation is used for assets placed in service in 1980 and prior years with recognition of deferred income taxes for the resulting timing differences.

Operating, selling and general and administrative expenses—Buying, warehousing and occupancy costs are included in operating, selling and general and administrative expenses.

Income taxes—Investment tax credits are accounted for under the flow-through method.

Deferred income taxes are provided for income tax and financial reporting differences with respect to depreciation, capitalized leases and other items.

Net income per share—Net income per share is based on weighted average outstanding common shares and common share equivalents and stock options reduced by shares assumed to have been purchased from such options under the treasury stock method.

Stock options—Proceeds from the sale of common stock issued under the stock option plans and related tax benefits which accrue to the Company are accounted for as capital transactions, and no charges or credits are made to income in connection with the plans.

#### Note 2 Inventories

Inventories at January 31, 1986, and January 31, 1985, were \$1,388,168,000 and \$1,103,925,000 respectively. Replacement cost would be \$140,181,000 greater in 1986 and \$123,339,000 greater in 1985.

#### Note 3 Notes payable and long-term debt

Information on short-term borrowings and interest rates follows:

Fiscal years ended January 31,

	1986	1985	1984
Maximum amount outstanding at		TO STATE OF THE	
month-end Average daily short-term	\$161,300,000	\$198,100,000	\$86,602,000
borrowings	\$ 35,947,000	\$ 36,216,000	\$24,748,000
Weighted average interest rate		10.4%	9.3%

At January 31, 1986, the Company had lines of credit to support short-term borrowings and commercial paper with 10 banks in an aggregate of \$325,000,000, and 90 day seasonal lines in an aggregate of \$100,000,000. Short-term borrowings against these lines of credit bear interest at or below the prime rate, and certain of the lines of credit require compensating balances or commitment fees.

Long-term debt at January 31 consists of:

	1986	1985
10%% Debentures due August 2000	\$100,000,000	\$ -
10% Participating Mortage Certificates due 200 9½% Participating Mortage Certificates II due		-
2005	25,000,000	
quarterly (including interest) to October		
2003	8,627,000	8,902,000
934% Mortgage notes, due 1986 through 2000 8½% Secured notes, payable \$121,030 quarterly	6,485,000	6,885,000
(including interest)	4,243,000	4,361,000
(including interest) to June 1992	1,176,000	1,334,000
Tax-exempt mortgage obligations, at an average		
rate of 10.3% due 1988 through 2014		15,795,000
Other	3,856,000	3,960,000
	\$180,682,000	\$41,237,000
		415

Annual maturities on long-term debt during the next five years are:

Fiscal years ending January 31,	Annual maturity
1987	\$1,605,000
1988	1,433,000
1989	1,474,000
1990	1,176,000
1991	1,246,000

The agreements relating to the  $9\frac{1}{4}\%$  mortgage notes, which are guaranteed by Wal-Mart Stores, Inc., and the  $8\frac{5}{8}\%$  and  $8\frac{1}{2}\%$  secured notes of a subsidiary contain certain restrictions on the subsidiary concerning additional debt, business activities and combinations, issuance of capital stock and investments.

Under the terms of the 10%% Debentures, the Company has agreed to observe certain covenants. Among these are provisions relating to secured debt and long-term leases.

In July 1985 the Company issued \$15,500,000 of 10% Participating Mortgage Certificates and in August 1985 the Company issued \$25,000,000 of 9½% Participating Mortgage Certificates. The agreements relating to these issues contain provisions for the interest rate to be adjusted in three years from issuance date to 9% and 8½%, respectively, and for contingent additional interest to be payable on a basis of the sales performance of the Wal-Mart stores collateralized by the issues.

#### Note 4 Income taxes

Reconciliations of the statutory federal income tax rate to the effective tax rate, as a percent of pre-tax financial income, are as follows:

	1986	1985	1984
Statutory tax rate	46.0%	46.0%	46.0%
Investment tax credits	(2.1)	(2.2)	(2.1)
State income taxes	2.1	2.0	2.1
Other	( .3)	.2	( .9)
Effective tax rate	45.7%	46.0%	45.1%

Investment tax credits resulted in reductions of the current federal income tax provisions for 1986, 1985 and 1984 of \$12,940,000, \$11,227,000 and \$7,493,000 respectively.

Deferred tax expense results from timing differences in the recognition of revenue and expense for tax and financial reporting purposes with respect to the following:

		1986	1985	1984
Depreciation	4	\$24,029,000	\$17,263,000	\$9,951,000
Capital leases		( 5,959,000)	( 4,936,000)	(3,326,000)
Other		( 148,000)	( 2,516,000)	2,071,000
		\$17,922,000	\$ 9,811,000	\$8,696,000

#### Note 5 Preferred and common stock

#### A. Preferred stock with mandatory redemption provisions

There are 25 million shares of \$.10 par value preferred stock authorized, with 181,229 shares of Series A 8% Cumulative Convertible Preferred Stock outstanding at January 31, 1986, and 222,860 shares outstanding at January 31, 1985. The stock has voting rights, a \$25.00 per share stated value, a \$27.50 liquidation and redemption value and is convertible into 4.4 shares of common stock. As of October 1, 1986, the Company may at its option redeem the preferred stock if the market price of the Wal-Mart common stock is at least 125% of the conversion price for any 10 consecutive trading days within 30 days preceding the redemption date. Commencing December 31, 1986, the Series A Preferred Stock will be subject to a sinking fund which provides for the redemption of all shares over a five-year period.

The preferred stock is listed on the New York Stock Exchange, and at January 31, 1986, there were 340 shareholders of record.

#### B. Common stock

There are 325 million shares of \$.10 par value common stock authorized, with 281,045,471 shares of common stock issued and outstanding at January 31, 1986, and 280,444,746 shares (adjusted to reflect the 100% stock dividend paid on October 4, 1985) issued and outstanding at January 31, 1985. The common

stock is listed on the New York Stock Exchange and the Pacific Stock Exchange, and at January 31, 1986, there were 21,828 shareholders of record.

At January 31, 1986, 4,682,969 shares of common stock were reserved, including 3,886,105 shares for issuance under the stock option plans and 796,864 shares for the conversion of the Series A Preferred Stock.

The options granted under the stock option plans expire 10 years from date of grant and may be exercised in nine annual installments. Further information concerning the options is as follows:

Option price	
(market price	
at date of grant)	

	at date of grants			
	Shares	Per Share	Total	
Shares under option		No. 1 To The Control of the Control		
January 31, 1985	2,559,656	\$ .74-22.88	\$19,984,435	
Options granted	180,750	22.19-30.00	5,084,650	
Options canceled	( 129,252)	.87-25.13	( 1,583,957)	
Options exercised	( 422,685)	.74-22.88	( 1,442,836)	
January 31, 1986 (593,770 shares exercisable)	2,188,469	\$ .74-30.00	\$22,042,292	
Shares available for option January 31, 1985	1,808,600			
January 31, 1986	1,697,636			

#### Note 6 Licensed department sales

The sales of licensed departments as reported by licensees are \$129,421,000, \$117,223,000 and \$76,835,000 for 1986, 1985 and 1984, respectively.

#### Note 7 Long-term lease obligations

The Company and certain of its subsidiaries have long-term leases for stores and equipment. Rentals (including for certain leases amounts applicable to taxes, insurance, maintenance, other operating expenses and contingent rentals) under all operating leases were \$95,088,000 in 1986, \$81,795,000 in 1985 and \$61,564,000 in 1984.

Aggregate minimum annual rentals at January 31,1986, under noncancelable leases are as follows:

Fiscal years	Operating leases	Capital leases
1987	\$ 70,417,000	\$ 76,709,000
1988	67,156,000	76,945,000
1989	65,529,000	76,562,000
1990	65,218,000	76,959,000
1991	63,178,000	76,885,000
Thereafter	682,740,000	1,225,098,000
Total minimum rentals	\$ 1,014,238,000	1,609,158,000
Less estimated executory c	23,351,000	
Net minimum lease paymer Less imputed interest at ra	to 14.0% 1,585,807,000 980,922,000	
Present value of net minim	um lease payments	\$ 604,885,000

Certain of the leases provide for contingent additional rentals based on percentage of sales. Such additional rentals amounted to \$11,793,000 in 1986, \$10,674,000 in 1985 and \$7,924,000 in 1984.

Substantially all of the store leases have renewal options for additional terms from five to 15 years at the same or lower minimum rentals.

The Company has entered into lease commitments for land and buildings for 138 future locations. The lease commitments with real estate developers or through sale/leaseback arrangements provide for minimum rentals for 20 to 25 years, excluding renewal options, which if consummated based on current cost estimates would approximate \$30,397,000 annually over the lease terms.

#### Note 8 Changing prices (unaudited)

The Financial Accounting Standards Board, Statement #33 as amended, Financial Reporting and Changing Prices, requires large public companies to provide information about the effect of specific price changes (current costs) on the company's financial statements.

In arriving at the net income adjusted to the current costs of the respective years, only the cost of goods sold and depreciation of fixed assets have been adjusted. According to the statement, revenues and all expenses other than cost of goods sold and depreciation are considered to reflect the average price level for the respective year and, accordingly, have not been adjusted.

Since corporations are taxed on historical dollar results without regard for the inflation-created decline in the real value of the dollar, the provision for income taxes has not been adjusted.

The objective of the current cost method is to reflect the effects of changes in specific prices of the resources actually used in the Company's operation, so that measures of these resources and their consumption reflect the current cost of replacing these resources, rather than the historical cost actually expended to acquire them. The historical cost of sales presented below has not been adjusted since cost of sales on a LIFO basis is generally considered to approximate replacement cost. The theory underlying the LIFO method of inventory accounting rests on the concept of matching current costs with current revenues. The Company principally uses the LIFO method of inventory valuation.

Current cost computations were made separately for each component of fixed assets. For purposes of determining current cost of facilities, the Company utilized the concept of service potential, which represents the assets (excluding operating leases) required to generate the sales volume obtained during the period. For certain items which are not acquired on a continual basis, the Company used published valuation cost indices. For those assets which are acquired or built on a continual basis, current costs are readily available for use in calculating estimated replacement cost. Depreciation expense computations were made utilizing the ratios between historical depreciation expense and historical assets within asset categories, and applying such ratios to asset replacement cost data.

Fiscal year ended January 31, 1986

	Historical dollars		ent costs nal dollars)

1985					
Net sales	\$1,234,769,000	\$1,508,534,000	\$1,583,573,000	\$2,073,985,000	
Cost of sales	903,912,000	1,117,654,000	1,163,704,000	1,537,170,000	
Net income	43,643,000	58,964,000	58,792,000	109,368,000	
Net income pershare	\$ .15	\$ .21	\$ .21	\$ .38	

<sup>\*</sup>Per share data prior to quarter ending October 31, 1985, have been adjusted to reflect the 100% stock dividend paid on October 4, 1985, to holders of Wal-Mart common stock.

Net income for the quarters ended January 31, 1986 and 1985 was increased \$5,441,000 (\$.02 per share) and \$11,147,000 (\$.04 per share) due to adjustment of the estimated inflation rate and other factors used to compute LIFO inventory cost for the first three quarters to the actual data for the year.

#### ACCOUNTANTS' REPORT

The Board of Directors and Shareholders Wal-Mart Stores, Inc.

We have examined the accompanying consolidated balance sheets of Wal-Mart Stores, Inc., and subsidiaries at January 31, 1986 and 1985, and the related consolidated statements of income, common shareholders'equity and changes in financial position for each of the three years in the period ended January 31, 1986. Our examinations were made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the statements mentioned above present fairly the consolidated financial position of Wal-Mart Stores, Inc., and subsidiaries at January 31, 1986 and 1985, and the consolidated results of operations and changes in financial position for each of the three years in the period ended January 31, 1986, in conformity with generally accepted accounting principles applied on a consistent basis during the period.

**Arthur Young & Company** 

Tulsa, Oklahoma March 24, 1986

#### RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements and information of Wal-Mart Stores, Inc. presented in this Report have been prepared by management which has responsibility for their integrity and objectivity. These financial statements have been prepared in conformity with generally accepted accounting principles, applying certain estimates and judgments based upon currently available information and management's view of current conditions and circumstances. The services of certain specialists, both from within the Company and from outside the Company, have been utilized in making such estimates and judgments.

Management has developed and maintains a system of accounting and controls, including an extensive internal audit program, designed to provide reasonable assurance that the Company's assets are protected from improper use and that accounting records provide a reliable basis for the preparation of financial statements. This system is continually reviewed, improved and modified in response to changing business conditions and operations and to recommendations made by the independent publicaccountants and the internal auditors. Management believes that the accounting and control systems provide reasonable assurance that assets are safeguarded and financial information is reliable.

The Company has adopted a Statement of Responsibility which is intended to guide our management in the continued observance of high ethical standards of honesty, integrity and fairness in the conduct of the business and in accordance with the law. Compliance with the guidelines and standards is continuously reviewed and is acknowledged in writing by all management associates.

The Board of Directors, through the activities of its Audit Committee, consisting solely of outside Directors, participates in the process of reporting financial information. The duties of the Committee include keeping informed of the financial condition of the Company and reviewing its financial policies and procedures, its internal accounting controls and the objectivity of its financial reporting. Both the Company's independent public accountants and the internal auditors have free access to the Audit Committee and the Board of Directors and meet with the Committee periodically, with and without management present.
