WAL-MART STORES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Basis of Presentation

The condensed consolidated balance sheet as of July 31, 2003, and the related condensed consolidated statements of income for the three and six-month periods ended July 31, 2003, and 2002, and the condensed consolidated statements of cash flows for the six-month periods ended July 31, 2003, and 2002, are unaudited. In the opinion of management, all adjustments necessary for a fair presentation of the financial statements have been included. Interim results are not necessarily indicative of results for a full year.

The financial statements and notes are presented in accordance with the rules and regulations of the Securities and Exchange Commission and do not contain certain information included in the Company's annual report to shareholders for the fiscal year ended January 31, 2003. Therefore, the interim statements should be read in conjunction with that annual report to shareholders. Certain reclassifications have been made to prior periods to conform to current presentations.

On May 23, 2003, the Company completed the sale of McLane Company, Inc. ("McLane"). In accordance with the provisions related to discontinued operations specified within Statement of Financial Accounting Standards No. 144 ("FAS 144"), "Accounting for the Impairment or Disposal of Long-Lived Assets," the accompanying consolidated financial statements and notes reflect the results of operations, financial position and cash flows of McLane as a discontinued operation.

NOTE 2. Net Income Per Share

Basic net income per share is based on the weighted average outstanding common shares. Diluted net income per share is based on the weighted average outstanding common shares and reflects basic net income per share reduced by the dilutive effect of stock options and restricted stock grants (a weighted average of approximately 10 million and 16 million shares for the six-month periods ended July 31, 2003, and 2002, respectively).

NOTE 3. Inventories

The Company uses the retail last-in, first-out (LIFO) method for the Wal-Mart Stores segment; cost LIFO for the Sam's Club segment; and other cost methods, including the retail first-in, first-out (FIFO) and average cost method, for the International segment. Inventories were not in excess of market value on the balance sheet dates. If the FIFO method of accounting had been used in the United States by the Company, inventories would have been \$66 million and \$64 million higher than reported at July 31, 2003, and January 31, 2003, respectively.

NOTE 4. Segments

The Company is principally engaged in the operation of mass merchandising stores that serve customers primarily through the operation of three segments. The Company identifies its segments based on management responsibility. The Wal-Mart Stores segment includes the Company's discount stores, Supercenters and Neighborhood Markets in the United States as well as Wal-Mart.com results. The Sam's Club segment includes the warehouse membership clubs in the United States. The International segment includes all operations in Argentina, Brazil, Canada, China, Germany, Mexico, Puerto Rico, South Korea and the United Kingdom.

Operating profit and reconciliation to income from continuing operations before income taxes and minority interest are as follows (in millions):

	<u>Three Months Ended</u> <u>July 31,</u>		<u>Six Months Ended</u> <u>July 31,</u>	
	<u>2003</u>	<u>2002</u>	<u>2003</u>	<u>2002</u>

Income from continuing operations before income taxes and minority interest	<u>\$ 3,577</u>	<u>\$ 3,127</u>	<u>\$ 6,454</u>	<u>\$ 5,664</u>

Operating losses in the "Other" category are the result of expenses recorded at the corporate level and not attributable to any particular operating segment.

Interest income for the three-month and six-month periods ended July 31, 2002, has been reclassified with interest expense to conform to current year presentation.

Goodwill is recorded on the balance sheet in the operating segments as follows (in millions):

	<u>July 31, 2003</u>	<u>January 31, 2003</u>
International	\$9,268	\$8,985
Sam's Club	305	305
Other	<u>-</u>	<u>99</u>
Total Goodwill	<u>\$9,573</u>	<u>\$9,389</u>

Changes in International segment goodwill are the result of foreign currency exchange rate fluctuations. Changes in other category goodwill resulted from the sale of McLane.

As of July 31, 2003, after consideration of stock options and debt securities that are convertible to common stock, the Company owned approximately 33% of Seiyu, Ltd. ("Seiyu") with warrants to purchase up to 66.7% of that company. Seiyu operates over 400 stores located throughout Japan. The Company's share of Seiyu's results of operations, which were not material, are included in the Company results. On August 30, 2003, Seiyu issued 35 million shares of stock to a group of investors including Wal-Mart. In this transaction Wal-Mart acquired 20.2 million shares of Seiyu for 4.460 billion yen (\$37.9 million at an exchange rate of 117.83 yen per dollar) which increased the Company's ownership interest in Seiyu to approximately 36%.

NOTE 5. Comprehensive Income

Comprehensive income is net income plus currency translation and hedge accounting adjustments that are recorded directly to shareholders' equity.

Comprehensive income was \$3.3 billion and \$2.7 billion for the quarters ended July 31, 2003, and 2002, respectively, and was \$5.1 billion and \$4.2 billion for the six months ended July 31, 2003 and 2002, respectively.

NOTE 6. New Accounting Pronouncements

On February 1, 2003, the Company adopted the standards of the Financial Accounting Standards Board Statement No. 143, *Asset Retirement Obligations* ("FAS 143"). FAS 143 requires the Company to recognize the fair value of a liability associated with the cost the Company would be obligated to incur in order to retire an asset at some point in the future. The adoption of this standard did not have a material impact on the Company's results of operations for the three months and six months ended July 31, 2003, respectively.

On February 1, 2003, the Company adopted the expense recognition provisions of the Financial Accounting Standards Board Statement No. 123, *Accounting and Disclosure of Stock-Based Compensation* ("FAS 123"). Under FAS 123, compensation expense is recognized based on the fair value of stock options granted. The Company has chosen to retroactively restate its results of operations for the accounting change. Following the provisions of FAS 123, the three months ended July 31, 2003, and 2002, include \$46 million and \$33 million, respectively, of pretax stock option expense, and the six months ended July 31, 2003, and 2002, include \$83 million and \$66 million, respectively, of pretax stock option expense, which is approximately \$0.01 per share in each period.

On February 1, 2003, the Company adopted the Financial Accounting Standards Board's Emerging Issues Task Force (EITF) Issue No. 02-16, "Accounting by a Reseller for Cash Consideration Received from a Vendor ("EITF 02-16"). The consensus reached by the EITF addressed the accounting for "Cash Consideration" (which includes slotting fees, cooperative advertising payments, etc). The consensus of the EITF establishes an overall presumption that cash received from vendors is a reduction in the price of vendor's products and should be recognized accordingly as a reduction in cost of sales at the time the related inventory is sold. Some consideration could be characterized as a reduction of expense if the cash received represents a reimbursement of specific, incremental, identifiable costs incurred by the retailer to sell the vendor's products.

As a result of adopting EITF 02-16, the Company recognized in the first quarter of fiscal year 2004 an adjustment of \$101 million after taxes or \$0.02 per share. The subsequent effect of the adoption of EITF 02-16 was not significant in the second quarter.

Note 7. Contingencies

The Company is involved in a number of legal proceedings, which include consumer, employment, tort and other litigation. The lawsuits discussed below, if decided adversely to or settled by the Company, may result in liability material to the Company's financial condition and consolidated financial statements. The Company may enter into discussions regarding settlement of these and other lawsuits, and may enter into settlement agreements, if it believes settlement is in the best interests of the Company's Shareholders.

Page 7 of 23 (Form 10-Q)

The Company is a defendant in numerous cases containing class action allegations in which the plaintiffs have brought claims under the Fair Labor Standards Act, under corresponding state statutes, or for breach of contract. The plaintiffs in these lawsuits are hourly associates who allege, among other things, that the Company forced them to work "off the clock" and failed to provide work breaks. The complaints generally seek unspecified monetary damages, injunctive relief, or both. Class certification has been decided in seven cases. In Texas, Ohio, Louisiana, and Michigan, the trial or appellate courts have denied class certification. In Oregon, a federal court has denied statewide certification as to state contract claims but allowed a limited class of opt-in plaintiffs to proceed with Fair Labor Standards Act and state statutory claims. A state-wide class was certified in Colorado, but the Order was vacated after settlement. A state-wide class was certified in Indiana and the ruling has been appealed. Class certification claims are yet to be addressed in thirty-seven cases. In addition, the California Department of Labor Standards Enforcement has initiated an investigation of Wal-Mart and Sam's CLUB for alleged failures to comply with California Wage and Hour laws.

The Company is currently a defendant in a putative class action brought on behalf of assistant store managers who challenge their exempt status under the Fair Labor Standards Act. The case is pending in federal court in Michigan. No determination has been made as to class certification.

The Company is a defendant in *Dukes v. Wal-Mart Stores, Inc.*, a putative class action lawsuit commenced in June 2001 and pending in the United States District Court for the Northern District of California. The case was brought on behalf of all past and present female employees in all of the Company's retail stores and wholesale clubs in the United States. The complaint alleges that the Company has engaged in a pattern and practice of discriminating against women in promotions, pay, training, and job assignments. The complaint seeks, among other things, injunctive relief, compensatory damages including front pay and back pay, punitive damages, and attorneys' fees. Class certification has not yet been decided, and there can be no assurance as to whether a class will be certified or, if a class is certified, as to the geographic or other scope of such a class. If the Court certifies a class in this action and there is an adverse verdict on the merits, or in the event of a negotiated settlement of the action, the resulting liability could be material to the Company, as could employment-related injunctive measures, which would result in increased costs of operations on an ongoing basis.

The Company is a defendant in five putative class action lawsuits, three of which are pending in Texas, one in New Hampshire, and one in Oklahoma. In each lawsuit, the plaintiffs seek a declaratory judgment that Wal-Mart and the other defendants who purchased Corporate Owned Life Insurance (COLI) policies lacked an insurable interest in the lives of the employees who were the insureds under the policies, and seek to recover the proceeds of the policies under theories of unjust enrichment and constructive trust. In some of the suits, the plaintiffs assert other causes of action, and seek punitive damages. In August 2002, the court in the first-filed Texas lawsuit denied the Company's motion for summary judgment and granted partial summary judgment in favor of the plaintiffs on certain issues. The Texas litigation has been stayed while the Fifth Circuit Court of Appeals reviews these rulings. Class certification has not been decided in any of these cases. In the Oklahoma litigation, the plaintiffs are seeking certification of a 12-state class and discovery is ongoing. The proceedings in New Hampshire have been stayed pending the court's ruling on the defendants' motions to dismiss, which were argued in April.

The Company is a defendant in *Mauldin v. Wal-Mart Stores, Inc.*, a lawsuit that was filed on October 16, 2001, in the United States District Court for the Northern District of Georgia, Atlanta Division. The lawsuit was certified by the court as a class action on August 23, 2002. The Company has filed a motion asking the court to reconsider this ruling. The class is composed of female Wal-Mart Associates who were participants in the Associates Health and Welfare Plan at any time from March 8, 2001 to the present and who were using prescription contraceptives. The class seeks amendment of the Plan to include coverage for prescription contraceptives, back pay for all members in the form of reimbursement of the cost of prescription contraceptives, pre-judgment interest, and attorneys' fees. The complaint alleges that the Company's Health Plan violates Title VII's prohibition against gender discrimination in that the Health Plan's Reproductive Systems provision does not provide coverage for prescription contraceptives.

Page 8 of 23 (Form 10-Q)

The Company is a defendant in a lawsuit that was filed on August 31, 2001, in the United States District Court for the Eastern District of Kentucky. *EEOC (Janice Smith) v. Wal-Mart Stores, Inc.* is an action brought by the EEOC on behalf of Janice Smith and all other females who made application or transfer requests at the London, Kentucky Distribution Center from 1995 to the present, and who were not hired or transferred into the warehouse positions for which they applied. The class seeks back pay for those females not selected for hire or transfer during the relevant time period. The class also seeks injunctive and prospective affirmative relief. The complaint alleges that the Company based hiring decisions on gender in violation of Title VII of the 1964 Civil Rights Act as amended. The EEOC can maintain this action as a class without certification.

The Company is a defendant in seven putative class actions pending in Massachusetts, in which the plaintiffs allege that the Company violated a state regulation requiring individual price stickers to be affixed to certain items offered for retail sale. Plaintiffs seek equitable relief requiring Wal-Mart to affix individual prices to such items when they are placed for sale in Massachusetts, statutory damages of \$25 for each violation in Massachusetts since 1998, treble damages, and attorneys' fees. The first suit was filed on November 26, 2002. Wal-Mart has filed motions to dismiss the statutory damage claims as to the unnamed class members and a motion to stay discovery pending the outcome of other pending motions. Class certification has not been decided in any of these cases. The court recently entered an Order staying all proceedings in the cases until October 10 2003, while the parties participate in mediation.

Note 8. Commitments

The Company has guaranteed specific obligations of certain third-party construction contractors in the amount of \$110 million. In connection with debt financing of \$500 million, the Company entered into related interest rate swaps; should an unlikely event occur that terminates these financing transactions and the related swaps, we would be liable for a termination payment that at July 31, 2003, approximated \$81 million. Additionally, the Company has entered into agreements with third-party companies that would require us to purchase specified transportation equipment for up to approximately \$149 million in the unlikely event that some or all of these agreements are terminated.

Note 9. Discontinued Operations

On May 23, 2003, the Company completed the sale of McLane. The Company received \$1.5 billion in cash for the sale. In accordance with the provisions related to discontinued operations specified within FAS 144, the accompanying consolidated financial statements and notes reflect the gain on the sale and the operations of McLane as a discontinued operation.

Following is summarized financial information for McLane operations (in millions):

	Three Months Ended July 31,		Six Months Ended July 31,	
	<u>2003</u>	<u>2002</u>	<u>2003</u>	<u>2002</u>
Income from discontinued operations	\$ 16	\$ 46	\$ 67	\$ 102
Income tax expense	<u>6</u>	<u>17</u>	<u>25</u>	<u>38</u>
Net operating income from discontinued operations	\$ 10	\$ 29	\$ 42	\$ 64

Income from discontinued operations, net of tax	<u>\$ 161</u>	<u>\$ 29</u>	<u>\$ 193</u>	<u>\$ 64</u>

The effective tax rate on the gain on the sale of McLane was 49% as a result of the non-deductibility of \$99 million of goodwill that was recorded on the Company's balance sheet at the time of the original McLane acquisition.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Wal-Mart Stores, Inc. ("Wal-Mart" or the "Company") is in the business of serving customers. In the United States, our operations are centered on retail stores and membership warehouse clubs. Internationally, our operations are centered on retail stores, warehouse clubs and restaurants. We have built our business by offering our customers quality merchandise at low prices. Through our negotiations with suppliers and by efficiently managing our distribution network we are able to obtain lower merchandise costs and pass them on to our customers. The key to our success is our ability to grow our base business. In the United States we grow our base business by aggressively building new stores and by increasing sales in our existing stores, including offering new kinds of goods and services to our customers. Internationally, we grow our business by building new stores, increasing sales in our existing stores and through acquisitions. We intend to continue to expand both domestically and internationally.

On May 2, 2003, we announced that we had entered into an agreement to sell McLane Company, Inc. ("McLane"), one of our wholly-owned subsidiaries, for \$1.5 billion. McLane was sold on May 23, 2003. We anticipate that, excluding any gain on the sale, the transaction will have a dilutive effect on our earnings of approximately \$0.01 per share in fiscal 2004 and \$0.02 per share in fiscal 2005. As a result of this sale, we have classified McLane as a discontinued operation in the discussions and comparisons of both the current fiscal year and prior fiscal year quarters ended July 31, as well as the fiscal year ended January 31, 2003.

This discussion relates to Wal-Mart Stores, Inc. and its consolidated subsidiaries and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended January 31, 2003, and with the financial statements and notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q.

Results of Operations

Our net sales increased by 11.3% and 10.5% for the quarter and six months ended July 31, 2003, respectively, when compared to the same periods in fiscal 2003. These net sales increases resulted from our domestic and international expansion programs and domestic comparative store sales increases of 3.2% and 2.7% for the quarter and six months ended July 31, 2003, respectively. We consider comparative stores sales to be sales at stores that were open as of February 1st of the prior fiscal year and have not been expanded or relocated since February 1st of the prior fiscal year. Stores that have been expanded or relocated during that period are not included in the calculation of comparative store sales. Comparative store sales are also referred to as "same-store" sales within the retail industry.

At July 31, 2003, we had 1,508 Wal-Mart stores, 1,356 Supercenters, 528 Sam's Clubs and 53 Neighborhood Markets in the United States. Internationally, we operated units in Argentina (11), Brazil (24), Canada (213), Germany (92), Mexico (610), Puerto Rico (52), South Korea (15), the United Kingdom (260) and under joint venture agreements in China (28). At July 31, 2002, we had 1,611 Wal-Mart stores, 1,156 Supercenters, 512 Sam's Clubs and 34 Neighborhood Markets in the

United States. Internationally, we operated units in Argentina (11), Brazil (22), Canada (196), Germany (96), Mexico (575), Puerto Rico (18), South Korea (12), the United Kingdom (255) and under joint venture agreements in China (20).

Page 10 of 23 (Form 10-Q)

Our total gross profit as a percentage of sales (our "gross margin") increased from 22.7% in the second quarter of fiscal 2003 to 22.9% during the second quarter of fiscal 2004. For the six-month period ended July 31, 2003, gross margin was 22.7%, up from 22.5% in the same period in fiscal 2003. The improvement in gross margin occurred despite pressures from increased markdowns taken. Additionally, the percentage of total sales generated by the International segment increased relative to the Sam's Club segment sales for both the three-month and six-month periods ended July 31, 2003, when compared to the same periods in the prior fiscal year. Because the International segment sales yield higher gross margins than does the Sam's Club segment, this change in sales mix favorably impacted the Company's total gross margin.

Operating, selling, general and administrative expenses, as a percentage of sales, were 17.8% and 17.9% for the second quarter and first six months of fiscal 2004, up from 17.6% and 17.7% in the corresponding periods in fiscal 2003, respectively. These increases were primarily due to expenses increasing at a rate greater than that at which sales increased as a result of increases in operating expenses, principally in wages and insurance.

Interest costs on debt and capital leases, net of interest income, as a percentage of sales decreased 0.1% for both the second quarter and first six months of fiscal 2004 when compared to the same periods in fiscal 2003. These decreases resulted from lower average interest rates on our outstanding indebtedness and the positive impacts of our interest rate swap program. To better aid the reader in understanding our financial statements, we have begun classifying interest income in the interest expense section of the income statement. Both our U.S. and international operating units generate interest income; however, the largest contributors of interest income are our operations in Mexico and in the United Kingdom. Interest income as a percentage of segment sales remained unchanged for both the second quarter and first six months of fiscal 2004 when compared to the same periods in fiscal 2003.

As a result of the foregoing factors and the \$151 million net gain realized from the sale of McLane, our net income increased by 21.1% and 17.9% for the quarter and six months ended July 31, 2003, respectively, when compared to our net income for the same periods in fiscal 2003. Our effective income tax rate for the second quarter of fiscal 2004 and fiscal 2003 was 35.0%.

Wal-Mart Stores Segment

Three months ended July 31, 2003

The following table gives selected financial information for the three months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase from prior fiscal year second quarter	Segment operating income (in millions)	Segment operating income increase from prior fiscal year second quarter	Operating income as a percentage of segment sales
2004	\$42,570	10.2%	\$3,317	9.3%	7.8%
2003	\$38,641	14.1%	\$3,036	17.2%	7.9%

The second quarter fiscal 2004 sales increase of the Wal-Mart Stores segment resulted from our continued expansion activities within the segment and sales increases in comparable stores. Expansion during the second quarter of fiscal 2004 consisted of the opening of 5 Wal-Mart Stores, 2 Neighborhood Markets and 47 Supercenters (including the conversion of 33 existing Wal-Mart Stores into Supercenters) and added 6,846,000 of additional store square footage. The comparative store sales increase for the segment was 3.1% for the second quarter of fiscal 2004. Segment sales as a percentage of our total net sales for the quarter ended July 31, 2003, decreased 0.7% from 68.7% in the quarter ended July 31, 2002. This decrease resulted from the greater growth of our International segment's net sales as a percentage of our total net sales than that experienced by the Wal-Mart segment.

Page 11 of 23 (Form 10-Q)

The decrease in Wal-Mart Stores segment's operating income as a percentage of segment sales resulted primarily from an increase in the segment's operating expenses as a percentage of segment sales that was partially offset by a slight improvement in the segment's gross margin. Operating expenses increased as the result of increases in wages, health care insurance and accident insurance costs. The slight improvement in gross margin occurred despite an increase in markdowns taken in the quarter.

Six months ended July 31, 2003

The following table gives selected financial information for the six months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase/ from prior fiscal year first six months	Segment operating income (in millions)	Segment operating income increase from prior fiscal year first six months	Operating income as a percentage of segment sales
2004	\$81,187	9.6%	\$6,069	8.7%	7.5%
2003	\$74,058	14.6%	\$5,581	16.7%	7.5%

The sales increase for the first six months of fiscal 2004 resulted from our continued expansion activities within the Wal-Mart Stores segment and sales increases in comparable stores. Expansion during the first six months of fiscal 2004 consisted of the opening of 11 Wal-Mart Stores, 4 Neighborhood Markets and 98 Supercenters (including the conversion of 71 existing Wal-Mart Stores into Supercenters) and added 13,968,000 of additional store square footage. The comparative store sales increase for the segment was 2.7% for the first six months of fiscal 2004. Segment sales as a percentage of our total net sales for the six months ended July 31, 2003, decreased by 0.6% from 68.6% in the six months ended July 31, 2002.

Wal-Mart Stores segment's operating income as a percentage of segment sales in this period remained unchanged from the previous year. This resulted from an increase in operating expenses as a percentage of segment sales, that was offset by an improvement in the segment's gross margin. Operating expenses as a percentage of segment sales increased from the first six months of fiscal year 2003 as the result of increases in wages, health care insurance and accident insurance costs.

Sam's Clubs Segment

Three months ended July 31, 2003

The following table gives selected financial information for the three months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase from prior fiscal year second quarter	Segment operating income (in millions)	Segment operating income increase from prior fiscal year second quarter	Operating income as a percentage of segment sales
2004	\$8,553	7.7%	\$309	12.8%	3.6%
2003	\$7,939	9.2%	\$274	3.0%	3.5%

The Sam's Clubs segment sales increase for the quarter ended July 31, 2003, resulted from the Sam's Clubs segment's continued expansion activities and sales increases in comparable clubs. Expansion during the second quarter of fiscal year 2004 consisted of the opening of 2 new clubs and adding 290,000 of additional club square footage. For the segment, the comparative sales increase was 3.6% for the quarter ended July 31, 2003. Segment sales as a percentage of our total net sales decreased from 14.1% in the quarter ended July 31, 2002, to 13.7% for the quarter ended July 31, 2003. The reduction in the Sam's Clubs segment's sales as a percentage of total Company sales largely resulted from the greater growth in the International segment than that experienced by the Sam's Clubs segment.

Page 12 of 23 (Form 10-Q)

The increase in the segment's operating income as a percentage of segment sales for the second quarter of fiscal year 2004 resulted from an increase in the segment's gross margin, which was the result of improvements in inventory shrinkage combined with an improved mix of higher margin sales items. Inventory shrinkage is the reduction of inventory due to theft or adjustments. The improvement in gross margin was offset by increased operating expenses. Other income, which consists mainly of club membership revenue, as a percentage of segment sales increased slightly.

Six months ended July 31, 2003

The following table gives selected financial information for the six months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase from prior fiscal year first six months	Segment operating income (in millions)	Segment operating income increase from prior fiscal year first six months	Operating income as a percentage of segment sales
2004	\$16,375	7.5%	\$513	4.7%	3.1%
2003	\$15,234	10.4%	\$490	1.4%	3.2%

The Sam's Clubs segment sales increase for the six months ended July 31, 2003, resulted from the Sam's Clubs segment's continued expansion activities and sales increases in comparable clubs. Expansion during the first six months of fiscal year 2004 consisted of the opening of 3 new clubs and adding 504,000 of additional club square footage. For the segment, the comparative sales increase was 3.0% for the six months ended July 31, 2003. Segment sales as a percentage of our total net sales decreased from 14.1% in the six months ended July 31, 2002, to 13.7% for the six months ended July 31, 2003. The reduction in the Sam's Clubs segment's sales as a percentage of total Company sales resulted largely from the greater growth in the International segment than that experienced by the Sam's Clubs segment.

The decrease in the segment's operating income as a percentage of segment sales for the first six months of fiscal year 2004 resulted from a decrease in gross margin. The reduction in gross margin was driven primarily by the effect of the EITF 02-16 adoption in the first quarter. Other income, which consists mainly of club membership revenue, as a percentage of segment sales, increased slightly in the first six months of fiscal 2004 when compared to the prior year. The increase in other income was offset by the increase in operating expenses as a percentage of segment sales.

International Segment

Three months ended July 31, 2003

The following table gives selected financial information for the three months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase from prior fiscal year second quarter	Segment operating income (in millions)	Segment operating income increase from prior fiscal year second quarter	Operating income as a percentage of segment sales
-------------	--------------------------------	--	---	--	--

2004	\$11,514	18.8%	\$561	18.9%	4.9%
2003	\$9,691	15.9%	\$472	79.5%	4.9%

Page 13 of 23 (Form 10-Q)

The International segment sales for the quarter ended July 31, 2003, when compared to the sales in the same period in fiscal 2003, increased as a result of continued expansion activities within the segment, comparative store sales increases and an expansion in the types of products and services offered. During the second quarter of fiscal year 2004, expansion in the International segment included the opening of 12 units, the closing of 2 units, and the net addition of 1,260,000 square feet in 5 countries. Our strongest comparative store sales increases were in the United Kingdom, Mexico and Canada. International sales as a percentage of our total net sales increased from 17.2% in the quarter ended July 31, 2002, to 18.4% for the quarter ended July 31, 2003. This increase stemmed largely from the results of our international expansion program and a \$578 million positive impact of foreign currency rates on segment sales.

International segment's operating income remained unchanged as a percent of the segment's sales from the second quarter of fiscal 2003 to the second quarter of fiscal 2004. The three-month period included some one-time charges, including a charge to write off intangible pharmacy licenses in the UK due to legislative changes and a charge for Value Added ("VAT") Taxes which were incurred in our Mexico operation. These VAT taxes related to Sam's Club sales in prior periods which were initially recorded as exports and were subsequently determined to have been improperly sold domestically. After review, we discontinued the Sam's Club export operations, which were not significant to the International segment. Without these impacts, operating income would have increased by 30.5% from the prior year's second quarter.

Six months ended July 31, 2003

The following table gives selected financial information for the six months ended July 31, 2003 and 2002:

Fiscal Year	Segment sales (in millions)	Segment sales increase from prior fiscal year first six months	Segment operating income (in millions)	Segment operating income increase from prior fiscal year first six months	Operating income as a percentage of segment sales
2004	\$21,792	16.6%	\$945	16.5%	4.3%
2003	\$18,683	16.8%	\$811	90.4%	4.3%

The International segment sales for the six months ended July 31, 2003, when compared to the sales in the same period in fiscal 2003, increased as a result of continued expansion activities within the segment, comparative store sales increases and an expansion in the types of products and services offered. During the first six months of fiscal year 2004, expansion in the International segment included the opening of 21 units, the closing of 4 units, and the net addition of 1,756,000 square feet in 5 countries. Our strongest comparative store sales increases were in the United Kingdom, Mexico and Canada. International sales as a percentage of our total net sales increased from 17.3% in the six months ended July 31, 2002, to 18.3% for the six months ended July 31, 2003. This increase stemmed largely from the results of our international expansion program, and a \$796 million positive impact of foreign currency rates on segment sales.

International segment's operating income as a percent of the segment's sales remained unchanged from the first six months of fiscal 2003 to the first six months of fiscal 2004 primarily as a result of the second quarter write-off of the intangible pharmacy licenses in the United Kingdom, the second quarter Mexico Sam's Club VAT charges discussed previously, and the adoption of EITF 02-16 in the first quarter. Without the these impacts, operating income would have increased by 33.3% from the prior year's first six months rather than by 16.5% as noted above.

Liquidity and Capital Resources

Cash flows provided by operating activities in the first six months of fiscal 2004 were \$6.3 billion, compared with \$5.1 billion for the comparable period in fiscal 2003. Operating cash flow increased for the first six months of fiscal 2004, compared with that for the comparable period in fiscal 2003, primarily due to a decrease of accounts receivable of \$320 million compared to a decrease of \$102 million in the same period of fiscal 2003, an increase of \$316 million in accrued liabilities for that period compared with a decrease of \$49 million in accrued liabilities in the first six months of fiscal 2003, offset by the addition of \$1.1 billion in inventory in the six months ended July 31, 2003, compared with an increase in inventory of \$1.5 billion in the comparable period in fiscal 2003.

Page 14 of 23 (From 10-Q)

During the first six months of fiscal 2004, we paid dividends of \$788 million, made \$4.6 billion in capital expenditures, issued long-term debt totaling \$3.1 billion, repaid \$1.4 billion of commercial paper (net of commercial paper issued in that period) and re-purchased \$1.4 billion of the outstanding shares of our common stock. In addition, we received cash of \$1.5 billion in May 2003, from the sale of McLane.

At July 31, 2003, we had total assets of \$98.8 billion compared with total assets of \$94.7 billion at January 31, 2003. Our working capital deficit at July 31, 2003, was \$680 million, a change of \$1.5 billion from the deficit of \$2.1 billion at January 31, 2003. The ratio of our current assets to our current liabilities was 1.0 to 1.0, at July 31, 2003, 0.9 to 1.0 at January 31, 2003, and 1.0 to 1.0 at July 31, 2002.

In March 2003, we announced that we had increased the annual dividend on our common stock by 20% to \$0.36 per share. We have increased our dividend every year since our first declared dividend in March 1974.

In February 2003, we sold \$1.5 billion of our floating rate notes due 2005 which bear interest at a per annum rate of LIBOR minus 0.0425%. In April 2003, we sold \$1.5 billion of our 4.55% notes that will mature in calendar 2013.

During June 2003, our Board of Directors restored the authorization level for our share repurchase program to \$5 billion. Shares purchased under our share repurchase program are constructively retired and returned to unissued status. We consider several factors in determining when to make share repurchases, including among other things, our current

cash needs, our cost of borrowing, and the market price of the stock. There is no expiration date governing the period over which we can make our share repurchases.

If our operating cash flows are not sufficient to pay the increased dividend and to fund our capital expenditures, we anticipate funding any shortfall in these expenditures with a combination of commercial paper and long-term debt. We plan to refinance existing long-term debt as it matures and may desire to obtain additional long-term financing for other corporate purposes. We anticipate no difficulty in obtaining long-term financing in view of our credit rating and favorable experiences in the debt market in the recent past. As of July 31, 2003, we have the ability to issue \$7 billion of debt in the public markets under a shelf registration statement previously filed with the United States Securities and Exchange Commission. Our objective is to maintain a debt to total capitalization ratio of approximately 40%. At July 31, 2003, and January 31, 2003, the ratio of our debt to our total capitalization was 37.5% and 39.1%, respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market Risk

Market risks relating to our operations result primarily from changes in interest rates and changes in foreign currency exchange rates. Our market risks at July 31, 2003, are similar to those disclosed in our Form 10-K for the year ended January 31, 2003. However, during the first six months of fiscal 2004, we added a \$1.5 billion notional floating interest to fixed interest rate swap in connection with our issuance of \$1.5 billion of floating interest rate notes in February 2003. The fair value of the swap was (\$11.0 million) at July 31, 2003, with the fair value of our total portfolio being \$707.8 million.

The information concerning market risk under the sub-caption "Market Risk" of the caption "Management's Discussion and Analysis" on pages 25 through 28 of the Annual Report to Shareholders for the year ended January 31, 2003, that is an exhibit to our Annual Report on Form 10-K for the year ended January 31, 2003, is hereby incorporated by reference into this Quarterly Report on Form 10-Q.

Page 15 of 23 (Form 10-Q)

Item 4. Controls and Procedures.

The Company maintains a system of disclosure controls and procedures that are designed to provide reasonable assurance that information, which is required to be timely disclosed, is accumulated and communicated to management in a timely fashion. An evaluation of the effectiveness of the design and operation of Wal-Mart's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) ("Disclosure Controls") was performed as of the end of the period covered by this report. This evaluation was performed under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that these Disclosure Controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

There has been no change in the Company's Internal Controls that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's control system. However, management has evaluated and modified and expects to continue to evaluate and modify our Internal Controls with a view to reasonably assuring that there are no significant deficiencies or material weaknesses in their design or operation, and in particular to address any irregularities that may have contributed to any liabilities or potential liabilities. In connection with this evaluation, management has considered matters described in "Note 7. Contingencies" in "Item 1. Financial Statements," of Part I of this Quarterly Report and in "Item 1. Legal Proceedings" of this Part II, as well as in connection with matters discussed in "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" of Part I.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

We discuss certain legal proceedings pending against us in Part I of this Quarterly Report on Form 10-Q under the caption "Item 1. ENVIRONMENTAL MATTERS: Item 103 of the Securities and Exchange Commissions Regulation S-K requires disclosure of certain environmental matters. The following matters are disclosed in accordance with that requirement:

During fiscal 2001, the State of Connecticut filed suit against the Company in the State of Connecticut Superior Court for the Judicial District of Hartford alleging various violations of state environmental laws and alleging that the Company failed to obtain the appropriate permits or failed to maintain required records relating to storm water management practices at 12 stores. The suit seeks to ensure the Company's compliance with the general permit for the discharge of stormwater associated with those stores.

The United States Environmental Protection Agency (EPA) has alleged that the Company and some of its construction contractors have violated the EPA's stormwater regulations on specific sites primarily in Colorado and Utah, but also in other parts of the country. On July 31, 2003, the Company served the EPA with a Notice of Dispute as required by the national consent decree entered into between the Company and the EPA in August, 2001. Serving the Notice of Dispute initiates an informal dispute resolution process in accordance with the terms of the consent decree. The Company also filed a copy of the Notice with the United States District Court for the Western District of Arkansas.

The United States Environmental Protection Agency (EPA) has initiated an investigation involving the Company's compliance with sections 608 and 609 of the Clean Air Act and regulations promulgated thereunder with regard to the sales of Class I and Class II refrigerant products. The statutes provide that the sales of these products are restricted to persons and/or entities which are properly licensed. The EPA asserts that, during the relevant time period, the Company made approximately 20 such sales to non-licensed persons and/or entities. The Company has an opportunity to settle these allegations without admitting any wrongdoing or violations of the statutes by paying a \$400,000 civil penalty and entering into a Consent Decree with the EPA. When approved by the Court, the Consent Decree will require that the Company comply fully with the relevant Clean Air Act sections and regulations on a going forward basis.

Item 5. Other Information

This Quarterly Report contains statements that Wal-Mart believes are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and intended to enjoy the protection of the safe harbor for forward-looking statements provided by that Act. These forward-looking statements generally can be identified by use of phrases such as "believe," "expect," "anticipate," "intend," "plan," "foresee" or other similar words or phrases.

Similarly, descriptions of our objectives, strategies, plans, goals or targets are also forward-looking statements. These statements discuss, among other things, expected growth, future revenues, future cash flows, future performance and the anticipation and expectations of Wal-Mart and its management as to future occurrences and

Page 19 of 23 (Form 10-Q)

trends. These forward-looking statements are subject to risks, uncertainties and other factors, in the United States and internationally, including, the cost of goods, the cost of electricity and other energy requirements, competitive pressures, inflation, consumer spending patterns and debt levels, currency exchange fluctuations, trade restrictions, changes in tariff and freight rates, unemployment levels, interest rate fluctuations and other capital market conditions, and other risks. We discuss certain of these matters more fully in other of our filings with the SEC, including our Annual Report on Form 10-K for our fiscal year 2003, which was filed with the SEC on April 15, 2003; this Quarterly Report should be read in conjunction with our Annual Report on Form 10-K, and together with all our other filings, including Current Reports on Form 8-K, made with the SEC through the date of this report. You are urged to consider all of these risks, uncertainties and other factors carefully in evaluating the forward-looking statements. As a result of these matters, including changes in facts, assumptions not being realized or other circumstances, our actual results may differ materially from historical results or from anticipated results expressed or implied in these forward-looking statements. The forward-looking statements included in this Quarterly Report are made only as of the date of this report and we undertake no obligation to update these forward-looking statements to reflect subsequent events or circumstances.

Market Risk

Market risks relating to our operations include changes in interest rates and changes in foreign exchange rates. We enter into interest rate swaps to minimize the risk and costs associated with financing activities, as well as to attain an appropriate mix of fixed and floating rate debt. The swap agreements are contracts to exchange fixed or variable rates for variable or fixed interest rate payments periodically over the life of the instruments. The following tables provide information about our derivative financial instruments and other financial instruments that are sensitive to changes in interest rates. For debt obligations, the table presents principal cash flows and related weighted-average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and interest rates by contractual maturity dates. The applicable floating rate index is included for variable rate instruments. All amounts are stated in United States dollar equivalents.

The Company holds currency swaps to hedge its net investment in the United Kingdom. In addition to the instruments in the table below, the Company has designated debt of approximately GBP 1 billion as hedges of the net investment in the United Kingdom. The following tables provide information about our cross-currency interest rate swap agreements by functional currency, and presents the information in United States dollar equivalents. For these instruments the tables present notional amounts, exchange rates and interest rates by contractual maturity date.

The Company also holds cross currency swaps which hedge the foreign currency risk of debt denominated in currencies other than the local currency.

During the fourth quarter of fiscal 2002, the Company terminated certain cross currency instruments that hedged portions of the Company's investments in Canada, Germany and the United Kingdom. The instruments terminated had notional amounts of \$6.7 billion. The Company received \$1.1 billion in cash related to the fair value of the instruments at the time of the terminations. Prior to the terminations, these instruments were classified as net investment hedges and were recorded at fair value as current assets on the balance sheet with a like amount recorded in the shareholders' equity section of the balance sheet in line "other accumulated comprehensive income." No gain related to the terminations was recorded in the Company's income statement.

We routinely enter into forward currency exchange contracts in the regular course of business to manage our exposure against foreign currency fluctuations on cross-border purchases of inventory. These contracts are generally for durations of six months or less. At January 31, 2003 and 2002, we held contracts to purchase and sell various currencies with notional amounts of \$185 million and \$117 million, respectively, and net fair values of less than \$1 million at either fiscal year.

The fair values of the currency swap agreements are recorded in the consolidated balance sheets within the line "other assets and deferred charges."
