[&]quot;Although some people will report that Wal-Mart has had record sales and earnings, our underlying operating performance this quarter is not what we expect of ourselves, and not what our shareholders expect of us," said Lee Scott, Wal-Mart Stores, Inc. president and chief executive officer. "For the remainder of this year, our management team is focused on inventory improvements, delivering quality products at low prices, and store execution at the highest standards."

Scott pointed out that consumers continue to be under pressure economically.

"Many customers around the world continue to be under economic pressure and they expect Wal-Mart to be their advocate," Scott continued. "We will continue to be the undisputed price leader, from Asda in the United Kingdom, to every market in the United States."

Segment Operating Income

Segment operating income from continuing operations for each of the Company's operating segments, which is defined as income before net interest expense, income taxes, unallocated corporate overhead, minority interest and discontinued operations, was as follows (dollars in billions):

	Thre	Three Months Ended July 31,		Six Months Ended July 31,		ed
	2007	2006	Percent Change	2007	2006	Percent Change
Segment Operating Income:						
Wal-Mart Stores	\$4.273	\$4.116	3.8%	\$8.201	\$7.974	2.8%

International	1.042	0.991	5.1%	1.945	1.748	11.3%

As the Company discussed in the first quarter of fiscal 2008, the above measurement of segment operating income was changed starting in the first quarter to be consistent with certain changes to internal management reporting. Therefore, certain direct segment costs that were previously retained and managed as corporate overhead costs are now allocated to the appropriate operating segment.
